

PWC1-D

Up and Down Wall Cylinder

DESCRIPTION

The Pantheon PWC1-D is a high-performance up and down wall cylinder with an attractive design well suited for commercial outdoor lighting applications. The luminaire incorporates CoB technology with reflective optics to provide a choice of medium, wide, or extra-wide beam distributions. The upward and downward light distributions may be selected independently to achieve a variety of lighting effects to enhance the space, resulting in a choice of nine different optics combinations. The PWC1-D is suitable for mounting heights from 8 to 16 feet. Options include fusing, surge protection, button photocell, and emergency battery backup. Standard finishes are dark bronze or black.
